- *Alternatively use the QR code on: https://www.veexinc.com/apps*

Software version 1.2.10 Build 62   May 18, 2023

Release Scope:

General Release. For VeSion RF systems only.

Requires:

- VeSion Server version: 4.2.3.24823 or later
- VeSion CX180F Server version: 3.1.8.24823 or later
- VeSion CX180R Server version: 3.1.7.24823 or later
- VeSion CX280X Server version: 3.1.2.24823 or later
- VeSion CX380X Server version: 3.1.8.24823 or later

New Features and Improvements

1. Added support for CX180R+ (requires VeSion server 4.3.3.25525 and CX180R server 3.2.0.25525 or later).
2. Added home icon.
3. Fixed an issue where the Search function did not work with pre-CX180R+ servers.
4. Temporarily removed notification bubble.

Known issues or limitations:

a. Requires Android version 10 or higher.
b. Requires iOS version 12 or higher.

Software version 1.2.4 Build 41   August 26, 2022

Release Scope:

General Release. Limited availability. For VeSion RF systems only.

Requires:

- VeSion Server version: 4.2.3.24823 or later
- VeSion CX180F Server version: 3.1.8.24823 or later
- VeSion CX180R Server version: 3.1.7.24823 or later
- VeSion CX280X Server version: 3.1.2.24823 or later
- VeSion CX380X Server version: 3.1.8.24823 or later

New Features and Improvements

1. Added support for servers with HTTPS self-signed certificate.

Known issues or limitations:

    a.   Requires Android version 10 or higher.

    b.   Requires iOS version 12 or higher.

Software version 1.2.3 Build 40   July 19, 2022

Release Scope:

General Release. Limited availability. For VeSion RF systems only.

Requires:

- VeSion Server version: 4.2.3.24823 or later
- VeSion CX180F Server version: 3.1.8.24823 or later
- VeSion CX180R Server version: 3.1.7.24823 or later
- VeSion CX280X Server version: 3.1.2.24823 or later
- VeSion CX380X Server version: 3.1.8.24823 or later

New Features and Improvements

1. Fixed display issue when iOS display is in dark mode.
2. Added overtype function to Settings > Return > Frequency input.

Known issues or limitations:

    a.   Requires Android version 10 or higher.

    b.   Requires iOS version 12 or higher.

Software version 1.2.1 Build 36   May 31, 2022

Release Scope:

General Release. Limited availability. For VeSion RF systems only.

Requires:

- VeSion Server version: 4.2.3.24823 or later
- VeSion CX180F Server version: 3.1.8.24823 or later
- VeSion CX180R Server version: 3.1.7.24823 or later
- VeSion CX280X Server version: 3.1.2.24823 or later
- VeSion CX380X Server version: 3.1.8.24823 or later

New Features and Improvements

1. Added support for Return Path Monitoring and On-Demand.
2. Added Indoor/Outdoor trace setting for Return Path Monitoring.
3. Added general settings for Return path.
4. Merged Notification Settings and Return Path Settings under General Settings menu.
5. Improved Port/Node search speed.

Known issues or limitations:

    a.   Requires Android version 10 or higher.

    b.   Requires iOS version 12 or higher.

Software version 1.1.5 Build 22   April 1, 2022

Release Scope:

General Release. Limited availability. For VeSion RF systems only.

Requires:

- VeSion Server version: 4.2.3.24823 or later
- VeSion CX180F Server version: 3.1.8.24823 or later
- VeSion CX180R Server version: 3.1.7.24823 or later
- VeSion CX280X Server version: 3.1.2.24823 or later
- VeSion CX380X Server version: 3.1.8.24823 or later

New Features and Improvements

1. Added support for URL with a specified port.

Known issues or limitations:

a. Requires Android version 10 or higher.
b. Requires iOS version 12 or higher.

Software version 1.1.4 Build 21   February 22, 2022

Release Scope:

Initial Release. Limited availability. For VeSion RF systems only.

Requires:

- VeSion Server version: 4.2.3.24823
- VeSion CX180F Server version: 3.1.8.24823
- VeSion CX180R Server version: 3.1.7.24823
- VeSion CX280X Server version: 3.1.2.24823
- VeSion CX380X Server version: 3.1.8.24823

New Features and Improvements

1. Added Alarms and Datalog – Allows users to search and view alarms.
2. Added Alarm and On-Demand link support in alarm detail dialog.
3. Added Notifications Settings menu – Allows users to customize their alarms notification preferences.
4. Added Scope filter – Allows users to select Org Chart scope for Alarms notifications.
5. Added push notifications – Allows users to receive mobile alarms push notifications.
6. Added Search function – Allows users to search and favorite ports.
7. Added VeSion Web On-Demand viewer – Allows users to access VeSion web mobile site for On-Demand tests from the app.
8. Added functionality allowing users to stay signed on after app termination.
9. Added ability to store multiple VeSion server logins.

Known issues or limitations:

a. Requires Android version 10 or higher.
b. Requires iOS version 12 or higher.
